

# WLS Aluminium gates.

## WELCOME TO OUR 2020 BROCHURE.

Choose from a large range of both contemporary and traditional gate designs, available in a range of standard colours:

Black  
(RAL 9004)

Grey  
(RAL 7016)

Wood  
(Light Oak)

Bespoke colours available  
on request.

### 5-year warranty

RMG aluminium gates are naturally corrosion resistant, low maintenance and supported by a 5-year warranty on the structure and finish.

### Cost effective

Our partners can source a robust gate without compromising on quality.

### Driveway gates

Double aluminium residential gates cover an opening spanning up to 4,500mm, with heights up to 2,400mm.

Coupled with the option of additional support posts and adjustable hinges, these gates cater for the majority of driveway entrances.

### Pedestrian gates

Pedestrian gates cover an opening spanning up to 1,200mm, with heights up to 2,200mm and include, as standard, adjustable hinges, lockable handle and lock keep.

Elegant, modern and aesthetically pleasing to the eye - the perfect solution to protect your property.

Our range of aluminium gates are in stock and ready for delivery with just the click of a button.

Our designs bring a contemporary twist to the traditional style, making them suitable for all types of properties.

A standard set of double, manual swing gates can be installed in less than two hours.

WLS gates can also accommodate all types of automation such as underground operators and automatic rams.

All aluminium gates have a hard-wearing, polyester powder-coated finish.

We offer both traditional and contemporary style of aluminium gates as standard.

### Why aluminium?

- ✔ Naturally corrosion-resistant. Aluminium oxide generates a rust-resistant shield, suitable for a saline environment.
- ✔ Aluminium is a perfect material for the fabrication of gates - strong, stable and lighter than traditional materials.
- ✔ Naturally low maintenance - simply wash down with soapy water and rinse. Available in a variety of sizes and colours for a beautifully aesthetic finish.
- ✔ Eco-friendly - aluminium gates can be purchased from recycled material for a lesser environmental impact, and can be recycled again.

### Standard sizes:

Pedestrian gates:

Height	1600mm	1800mm	2000mm	2200mm	
Width	800mm	900mm	1000mm	1100mm	1200mm

Double gates:

Height	1600mm	1800mm	2000mm	2200mm	2400mm		
Width	3000mm	3250mm	3500mm	3750mm	4000mm	4250mm	4500mm

The WLS001DG is a full privacy driveway gate with a vertical solid infill and flat top, providing a modern and streamlined design.

Full privacy is a great option to ensure the maximum protection of your property.

Although aluminium is very strong, it is also lightweight which makes it a versatile material. This is perfect for the fabrication of gates compared to traditional metals such as; wrought iron, cast iron, wood or stainless steel.

Another advantage of the WLS001DG is that it is very low maintenance. Aluminium is highly resistant to corrosion unlike other metals, it will not suffer from changing weather conditions and actually becomes stronger in low temperatures, perfect for UK buyers!

In order to keep the gate looking brand new, simply wash down with soapy water and rinse. There is no special treatment required and the gates also have a 5 year manufacturer's guarantee.

- ✔ Various sizes available.
- ✔ Custom colours available.
- ✔ Powder coated finish.
- ✔ Modern and stylish.
- ✔ Robust and lightweight.
- ✔ Very low maintenance.
- ✔ Wall or floor mounted optional fixings.
- ✔ Driveway gates can be manual or electrically automated.
- ✔ Easy installation.
- ✔ Weather resistant.
- ✔ Five year manufacturer's guarantee.
- ✔

The WLS009DG is a partial privacy driveway gate with a vertical solid infill, bell-curved top and a thicker frame for a more robust, executive style, allowing visibility to the middle section of the gate.

Although aluminium is very strong, it is also lightweight which makes it a versatile material. This is perfect for the fabrication of gates compared to traditional metals such as; wrought iron, cast iron, wood or stainless steel.

Another advantage of the WLS009DG is that it is very low maintenance. Aluminium is highly resistant to corrosion unlike other metals, it will not suffer from changing weather conditions and actually becomes stronger in low temperatures, perfect for UK buyers!

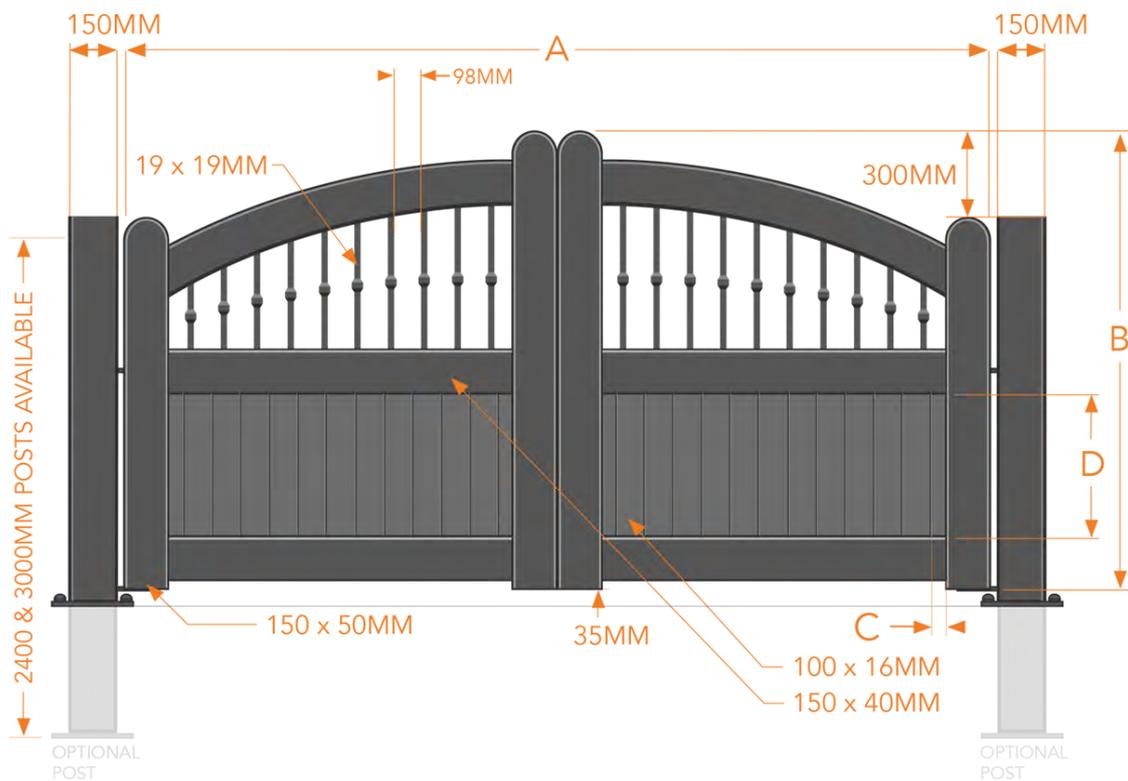

In order to keep the gate looking brand new, simply wash down with soapy water and rinse. There is no special treatment required and the gates also have a 5 year manufacturer's guarantee.

- ✔ Various sizes available.
- ✔ Custom colours available.
- ✔ Powder coated finish.
- ✔ Modern and stylish.
- ✔ Robust and lightweight.
- ✔ Very low maintenance.
- ✔ Wall or floor mounted optional fixings.
- ✔ Driveway gates can be manual or electrically automated.
- ✔ Easy installation.
- ✔ Weather resistant.
- ✔ Five year manufacturer's guarantee.

## WLSA01 Ornate Heavy Duty Hinge

- ✔ Black metal hinges.
- ✔ Dimensions: 150mm x 50mm x 135mm

The Ornate Heavy Duty Hinges are used for support at the top and bottom of your Ornate Gate, when the gate is attached to a wall or attached to the posts.

## WLSA02 / WLSA06 Gate Stops

The black metal centre gate stop should be used to support the ornate gates when in a closed position to ensure that you have a secure closed gate.

## WLSA03 / WLSA07 Adjustable Hinge

- ✔ Large Hinge (RMGA03): 105mm x 50mm.
- ✔ Small Hinge (RMGA07): 83mm x 40mm.
- ✔ Metal components with black plastic casing.

The Ornate Heavy Duty Hinges are used for support at the top and bottom of your Ornate Gate, when the gate is attached to a wall or attached to the posts.

## WLSA04 Floor-Mounted Hinge

- ✔ Metal floor mounted hinge.
- ✔ Dimensions: 111mm x 50mm x 30mm high.

The floor mounted hinge is used when the aluminium posts are needed. The floor mounted hinge provides the gate with extra support.

## WLSA05 / WLSA09 Gate Handle Set with Keys and Lock

- ✔ Handle: 214mm x 28mm.
- ✔ Lock Keep: 238mm x 50mm.
- ✔ Black metal casing.
- ✔ Five lever lock system

The black handle set consists of two smart, modern handles supplied with keys, fittings and lock. A secure locking handle for your gate.

## WLSA10 Lock Keep

- ✔ Dimensions: 238mm x 50mm.
- ✔ Black metal casing.

The black lock keep allows for the smooth opening and closing of your gate when used with the lock and handle set above. The sturdy structure gives you perfect security and peace of mind.

## WLSP Gate Posts WLSC Gate Caps

- ✔ Five year manufacturers guarantee.
- ✔ Powder coated finish.
- ✔ Standard colours available: Sandy Black, Sandy Grey and Wood.
- ✔ Bespoke colours available on request.

The aluminium flagged gate posts allow the gates to become more versatile and fit into any space. They are designed to match the gates and can be used as stand alone posts to support the gates if there is no walling to be attached to, or to fill a gap between a wall and the gate.

Made from robust, lightweight, 3.5mm wall aluminium (5mm wall for heavy duty), these posts are strong, stable and lighter than traditional materials, they are available in four generic sizes.

The aluminium post caps are the finishing touch for each post and have been designed to match the gates and the posts.
